

ECCE 15 & ECAB 8 - Call for papers

**15th European Congress of Chemical Engineering
8th European Congress of Applied Biotechnology
together with CIBIQ – 3rd Iberoamerican Congress on Chemical Engineering**

The European Federation of Chemical Engineering (EFCE) and the European Society of Biochemical Engineering and Sciences (ESBES) are excited to invite experts from academia and industry to [ECCE/ECAB 2025](#) in Lisbon/Portugal. This exceptional event will be held in partnership with the 3rd CIBIQ - Iberoamerican Congress on Chemical Engineering, providing a unique platform to foster collaboration and innovation within the Ibero-American chemical engineering community.

Mark Your Calendars: September 8 - 10, 2025

Prepare for a comprehensive scientific programme and a lot of opportunities to discuss the latest research and development across all areas of biotechnology, process engineering, and related disciplines. Attendees will gain insights into cutting-edge solutions for sustainable processes, innovative products, new materials, energy storage, healthcare advancements, and other urgently needed innovations that are shaping the future.

“Engineering for a Sustainable World: Summit for Clean Technologies & Brighter Legacy,” the core theme of the event, resonates with the United Nations’ Sustainable Development Goals (SDGs), highlighting the critical role of chemical and biochemical engineering in promoting sustainability.

Call for Abstracts

The Organizing Committee invites you to submit your abstracts for lectures and posters by **February 14, 2025**. Seize this opportunity to share your research and insights with leaders in the field! For a comprehensive list of topics, please visit <https://ecce-ecab2025.eu/topics>.

Stay Informed: For the latest updates and information about the conference, please check our official conference website regularly.

Looking forward to seeing you in Lisbon,

Guilherme N.M. Ferreira

Giorgio Veronesi

Technical University of Lisbon/Portugal

Techint E&C, Milan/Italy
